### Introducing **LUNAR**.

Howling Moon's Hard Shell Roof Top Tent.

The traditional heavy duty Howling Moon ripstop canvas will keep you cool and dry.

With a fully quilted comfort high density 100mm foam mattress giving you a home away from home nights' rest!

Unique locking system to ensure stability when open and can withstand harsh weather and wind (120km/h).

Aluminium mounting rails built into top of Lid to enable fitting of accessories such as solar panels, bicycles, or kayaks with a load capacity of 20kg.

The reflective 280gsm/sm ripstop canvas is 2x cooler than conventional canvas.

Flourocarbon impregnated for protection against soilage and water ingress, a perfect blend of cotton and polyester offers stronger, superior thermal properties while still allowing the canvas to breath.

Entrances on both sides or can be retro fitted to the front and back, make access quick and easy. Windows roll downwards to allow for opening halfway.

Internal elastic tensioner rope to assist with packing up.

### Specs:

- Weight approx. 70kg
- Outer dimensions (closed) L220xW150xH33cm
- Inside dimensions (open) L215xW145xH105cm
