180° SWING AWN

FEATURES

- UV-resistant, waterproof and surface-proofed with Fluorocarbon to facilitate soil release and rapid drying

- Self-contained, drop-down telescopic legs to bolster it in strong winds

- Packaged in a waterproof, dust-proof exterior PVC bag with zip opening

- Unique built-in mooring ropes create outstanding water run-off

- Free standing up to 20KM/H winds.

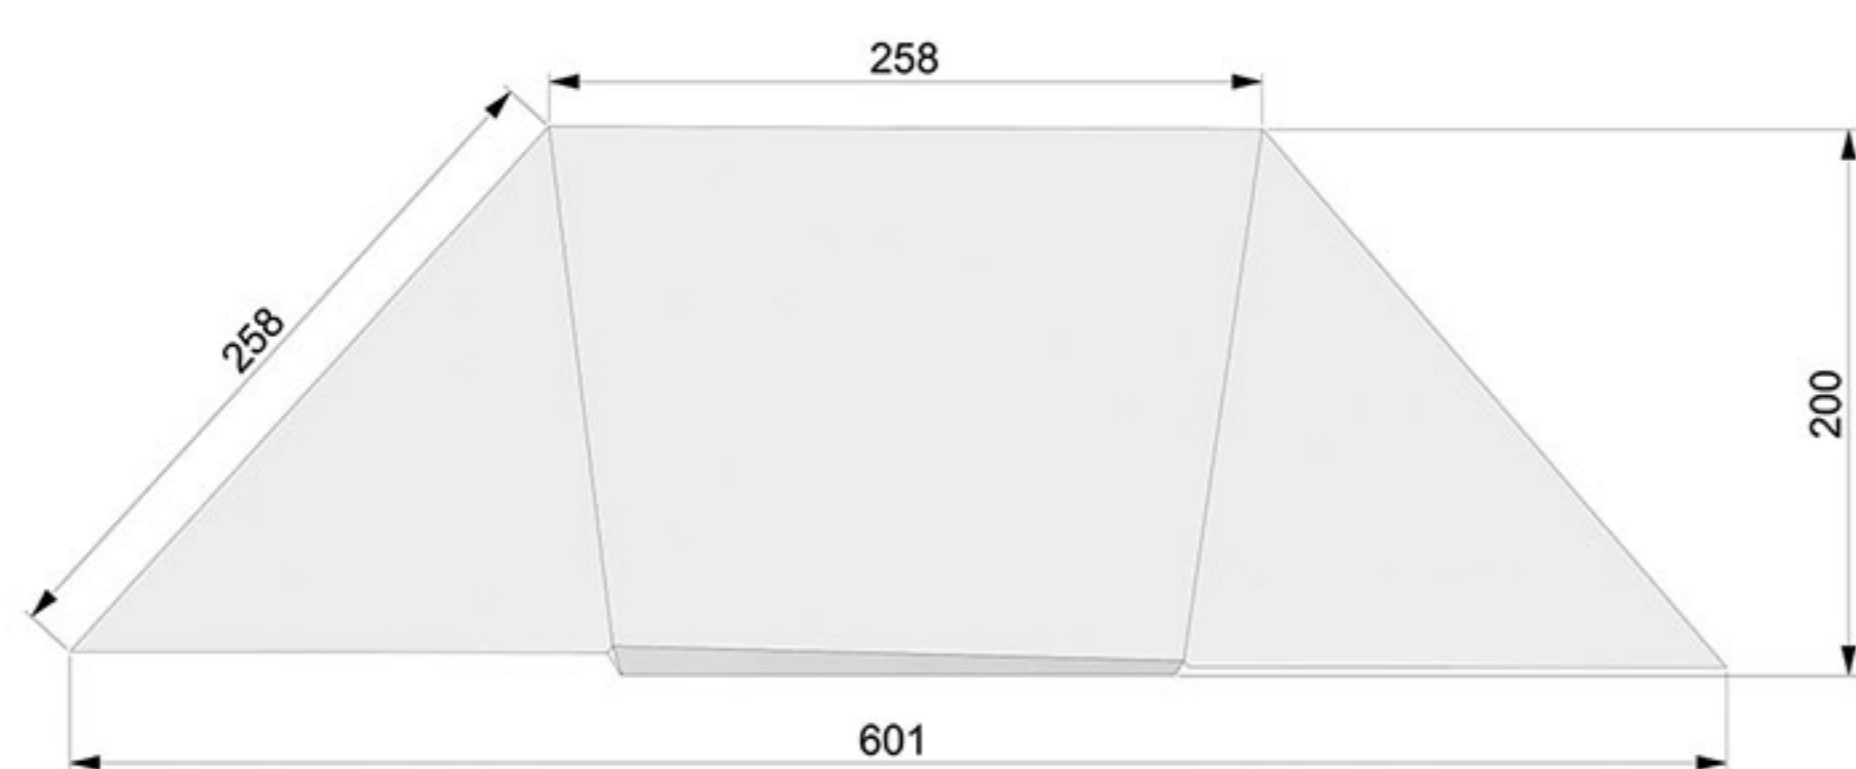

- Solid hinge system

180° SWING AWN

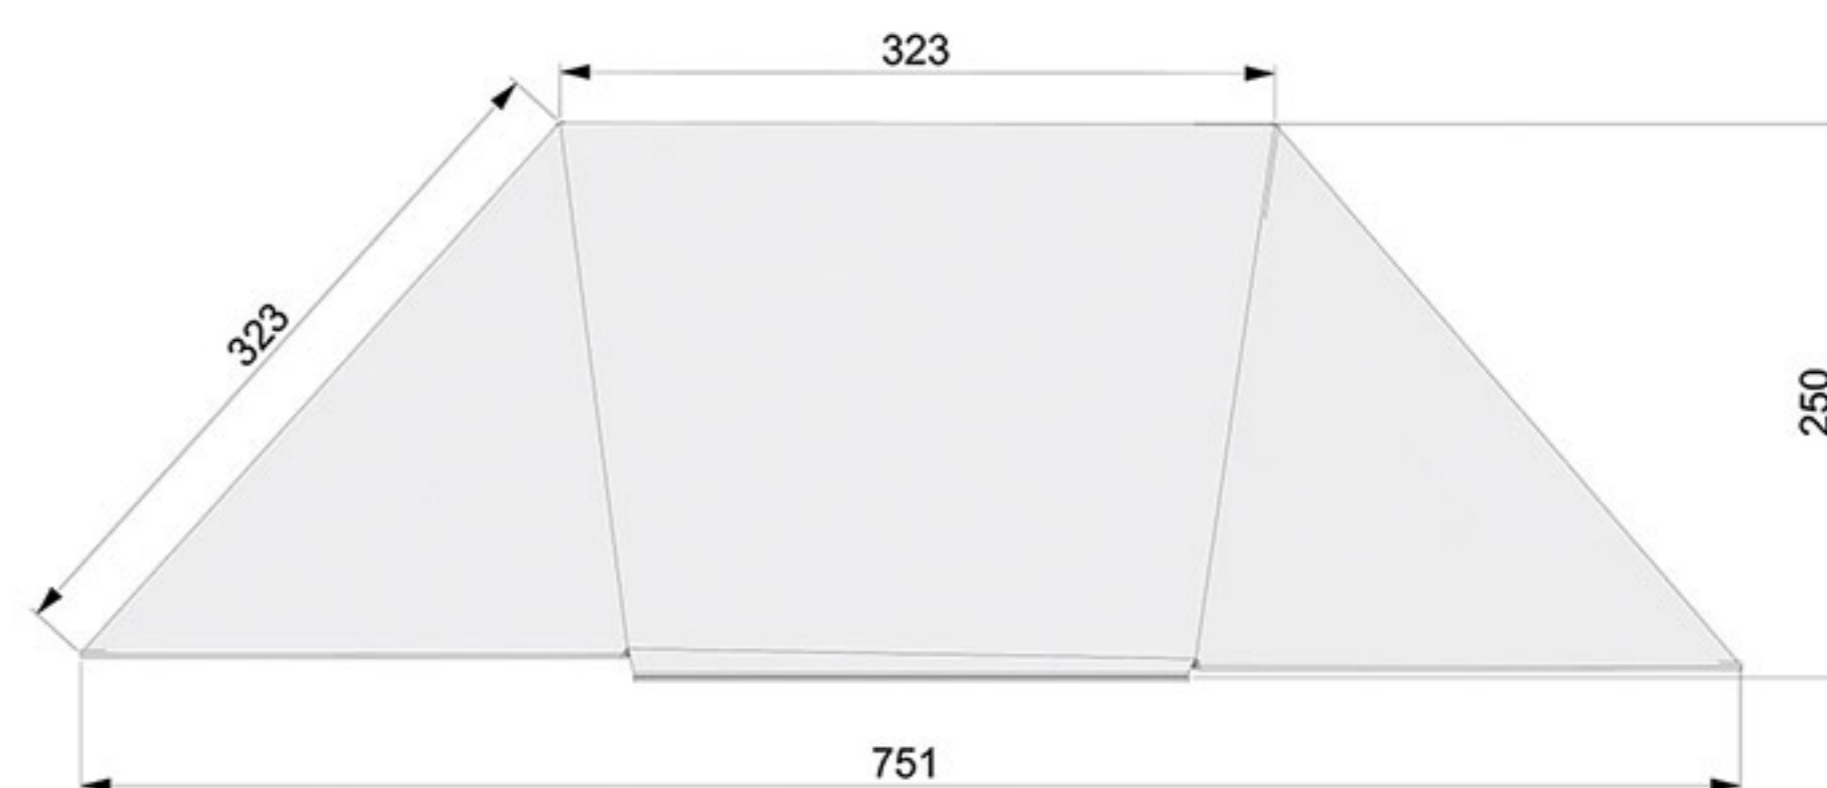

The Howling Moon awnings offer instant protection from the sun and inclement weather. The 180 degree Swing Awn is a perfect choice for those who want a quick and easy setup with a massive 180 degree coverage and comes in the 2m and 2.5m lengths. Free standing up to approx. 20KM/H winds but always be sensible and pin a leg down in case there are heavy wind gusts.

CANVAS HIGHLIGHTS

The Canvas is 360gsm/sqm with a perfect blend of cotton and polyester which offers stronger, superior thermal properties over traditional canvases. It is also Fluorocarbon impregnated for protection against soilage and water ingress through the seams and also prevents wetting through the fabric but most importantly still allowing the canvas to breath. An additional anti-fungal treatment is used to withstand UV and gathering. All seams are double stitched for added protection.

2m 180° Swing Awn

2.5m 180° Swing Awn
